DEAR PARENTS OR GUARDIANS:

Thank you for your interest in the Michigan Child and Adult Care Food Program. Your Family Child Care Provider participates in this program because she/he cares about the health and growth of your child. Through the Food Program, your Provider receives reimbursement for some of the costs of the nutritious meals that she/he serves. Foods are purchased by your Provider and served to your child(ren) including iron fortified infant formula and cereal. If you supply the food or formula to your Provider, contact the Grand Rapids Urban League before you sign this form to be certain your child can participate in the Food Program and whether your Provider can receive reimbursement.

Please complete all information requested below and return this form to your Child Care Provider to enable your child(ren) to participate in the Food Program. Race information is requested by the USDA to assure compliance with Title VI of the Civil Rights Act of 1964.

Please complete the schedule below for your children in care. Be certain to list days in care and arrival and departure times accurately as this information will be used to determine authorization for reimbursement. If care times vary, use the space below to explain in detail, or attach a separate sheet.

MICHIGAN CHILD AND ADULT CARE FOOD PROGRAM

Dear Parent or Guardian:

This Family Child Care Home is a participant in the Child and Adult Care Food Program (CACFP), a federal program providing financial assistance and nutrition training to eligible child care facilities. It is administered in Michigan by the Department of Education. The Grand Rapids Urban League serves as a sponsor of this program and represents your Child Care Provider. The primary goal of the CACFP is to improve the nutritional intake of children in child care facilities and provide nutrition education and training to the children’s caregivers. Through the CACFP, you can be assured that your child is receiving balanced, nutritious meals and a foundation for healthy lifelong eating habits.

NUTRITION is an essential part of good health, and correct eating habits are an important and necessary lifelong skill. Proper Nutrition is of primary importance in a quality child care program, and children need well-balanced meals in order to meet their daily energy needs to build strong bodies and minds. As a participant in the CACFP, your Family Child Care Provider receives reimbursement for up to TWO MEALS AND ONE SNACK OR ONE MEAL AND TWO SNACKS per child per day. All of the meals must meet patterns set by USDA in accordance with the Recommended Dietary Allowance for children.

Your Child Care Provider has agreed to follow USDA minimum nutritional standards in the planning and serving of meals to your child(ren) in their child care program. Written information that states the USDA minimum requirements is available from your Provider or the Grand Rapids Urban League. If your child cannot eat the required food, you must have your physician complete a food substitution form and submit this information to your Child Care Provider. Your Provider will then be able to serve your child(ren) the foods your doctor says are necessary, and still receive reimbursement. Ask your Provider or Urban League Child Care Specialist for the form.

If you have an infant child (age birth through 11 months), your Caregiver is responsible for providing the iron-fortified infant formula and cereal to your infant child(ren). Only one type of formula is required to be offered by your provider, however, a parent/guardian may choose to decline the offered formula and supply another type. If your child(ren) require a different type of formula, and you choose to provide this formula along with age-appropriate infant foods to your caregiver, you must acknowledge this by completing a Waiver Statement form. This form allows the Urban League to determine if your provider is eligible to receive reimbursement. Ask your provider for the form or contact the Grand Rapids Urban League.

Foods in the infant meal pattern vary according to the infant’s age. The pattern for children one year and older is shown below, followed by the infant meal pattern.
